

## MY CONTRACT

As I go through the CareerHack Program, I hope to learn more about Web-Development and career opportunities in the field.

Some challenges I may face are: not enough time to learn everything in that short time, running low on self-esteem or motivation.

To deal with these challenges I plan to devote all my time to the course and try my best to become good in what I do.

During the program, I commit to putting time aside for myself, because I want to achieve my goal of becoming a good web-developer and finding an inspiring job.
